The following significant new factors (as referred to in Art 16 (1) of the Prospectus Directive and Article 13.1 of Chapter 1 of Part II of the Prospectus Act) relating to the information included in the Prospectus which is capable of affecting the assessment of the Notes, have arisen:

On 27 June 2016, the rating agency Moody's Investors Service Ltd placed on review for upgrade the Issuer's Baa2 long-term debt rating and Ba2 subordinated debt rating, while affirming its P-2 short-term debt rating.

Consequently, the following changes to the Prospectus shall be made:

1. On page 5 of the Prospectus, the third paragraph in Element B.17 shall be replaced in its entirety to read as follows:

"The Issuer is assigned a long-term issuer rating of "BBB+" with negative outlook by Fitch Ratings Limited ("Fitch"), "Baa2" on review for upgrade by Moody's Investors Service Ltd ("Moody's") and "BBB" with negative outlook by Standard & Poor's Credit Market Services Europe Limited ("Standard & Poor's"), as well as a short-term issuer rating of "F2" by Fitch, of "P-2" by Moody's and of "A-2" by Standard & Poor's."

2. On page 20 of the Prospectus, the third paragraph in Element B.17 shall be replaced in its entirety to read as follows:

"Die Emittentin hat ein Langzeit-Emittentenrating von "BBB+" mit negativem Ausblick von Fitch Ratings Limited ("Fitch"), "Baa2" mit Überprüfung auf Ratingverbesserung von Moody's Investors Service Ltd ("Moody's") und "BBB" mit negativem Ausblick von Standard & Poor's Credit Market Services Europe Limited ("Standard & Poor's"), sowie ein Kurzzeit-Emittentenrating von "F2" von Fitch, "P-2" von Moody's und "A-2" von Standard & Poor's."

3. On page 290 of the Prospectus under "General Information – 9. Ratings", the first sentence under the sub-heading "9. Ratings" shall be replaced in its entirety to read as follows:

"The Issuer is assigned a long-term issuer rating of "BBB+" with negative outlook by Fitch Ratings Limited ("Fitch"), "Baa2" on review for upgrade by Moody's Investors Service Ltd ("Moody's") and "BBB" with negative outlook by Standard & Poor's Credit Market Services Europe Limited ("Standard & Poor's"), as well as a short-term issuer rating of "F2" by Fitch, of "P-2" by Moody's and of "A-2" by Standard & Poor's."

Furthermore, the following additional amendments will be made in the Prospectus:

4. On page 35 of the Prospectus, the second paragraph of the risk factor "Market risks" shall be replaced in its entirety to read as follows:

"Furthermore, market disruptions can also be triggered by current tendencies challenging the stability or even the existence of the European Union (EU) in its current form, such as the referendum in the United Kingdom to leave the EU (Brexit), which, in addition to increasing economic volatility and market uncertainty globally, could have a significant negative impact on the economic development of EU member countries."

5. On page 47 of the Prospectus, the risk factor "The secondary market generally" shall be replaced in its entirety to read as follows:

*"The secondary market generally*

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Moreover, significant market disruptions, such as those caused by the referendum in the United Kingdom to leave the EU (Brexit) or the banking and sovereign debt crisis in the EU and globally, can increase economic volatility and market uncertainty to such an extent that overall market liquidity is substantially reduced. Illiquidity may have a severely adverse effect on the market value of Notes."
