²⁾ Pioneer Investments Austria + Bank Austria real estate funds

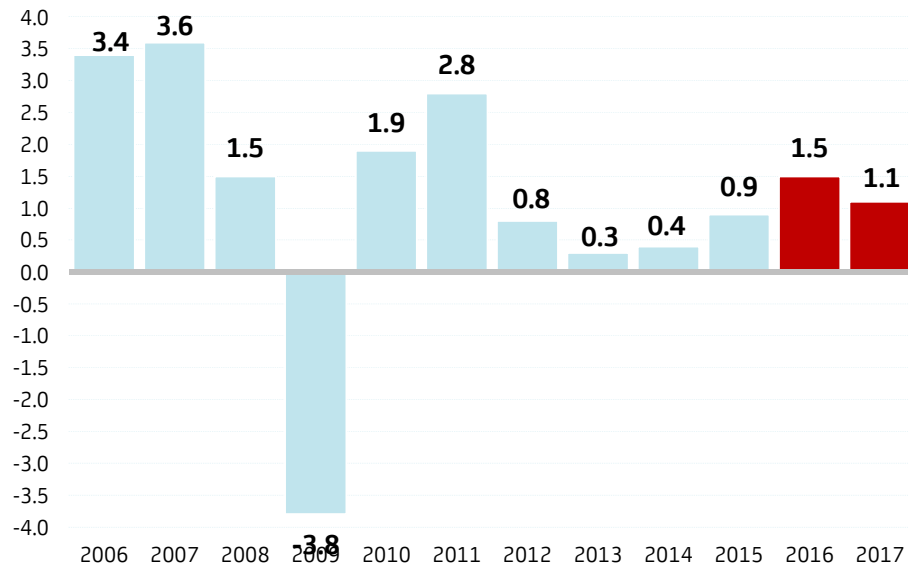

Economic Conditions in Austria

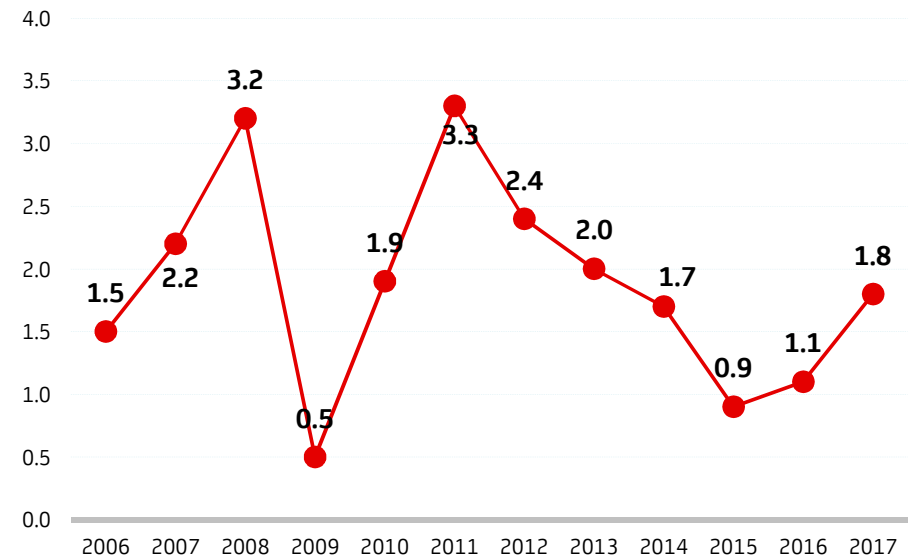

1 2 3

Overview Bank Austria
Business Model & Strategy

Austrian economic growth YoY in %

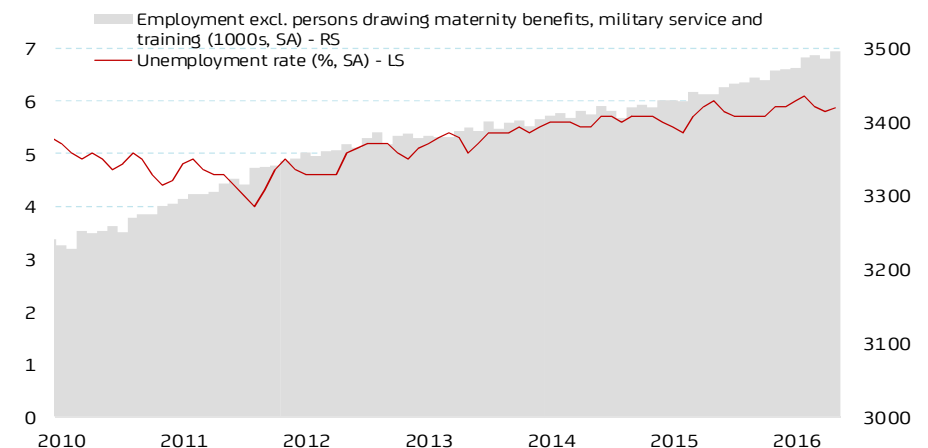

Austrian inflation rate YoY in %

- Economic growth accelerated at the beginning of 2016 after a quarter-on-quarter 0.2% rise in GDP at the end of 2015. GDP expanded by 0.8% in the first quarter 2016 compared to the previous quarter.
- In the second half of the year, the uncertainty triggered by the UK's decision to leave the EU will impact economic growth. As the somewhat weaker growth in the latter half of 2016 will be offset by the better-than-expected economic performance in the first six months, we are still looking for economic growth of 1.5% for 2016 as a whole.
- While inflation was driven by rising rentals as well as hotel and restaurant prices, the dampening effect of lower oil prices decreased. The inflation rate is expected to accelerate slightly yoy in autumn. For 2016 as a whole we expect inflation to average 1.1 per cent. Since the labor supply will continue to grow, we still foresee an increase in the unemployment rate up to even 6% on average for 2016.

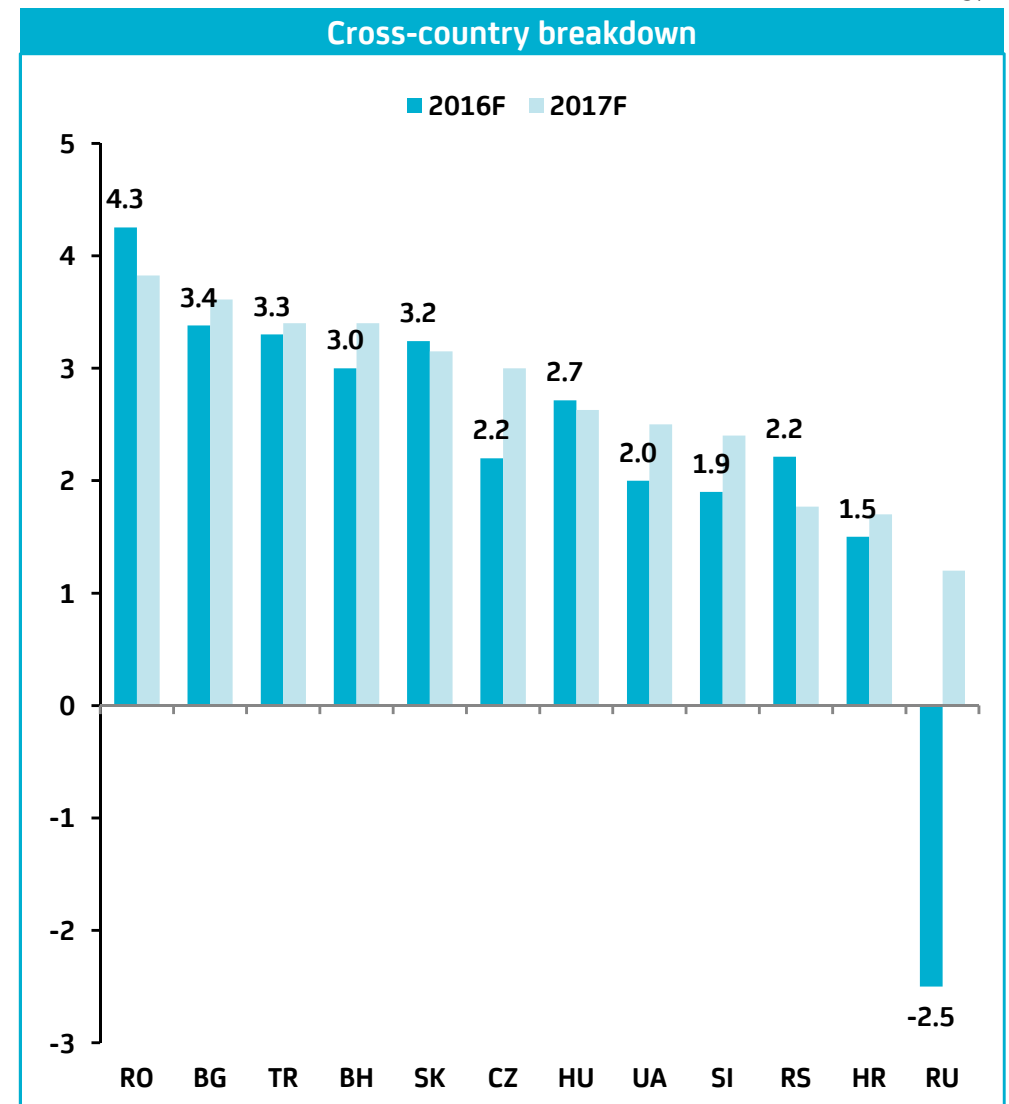

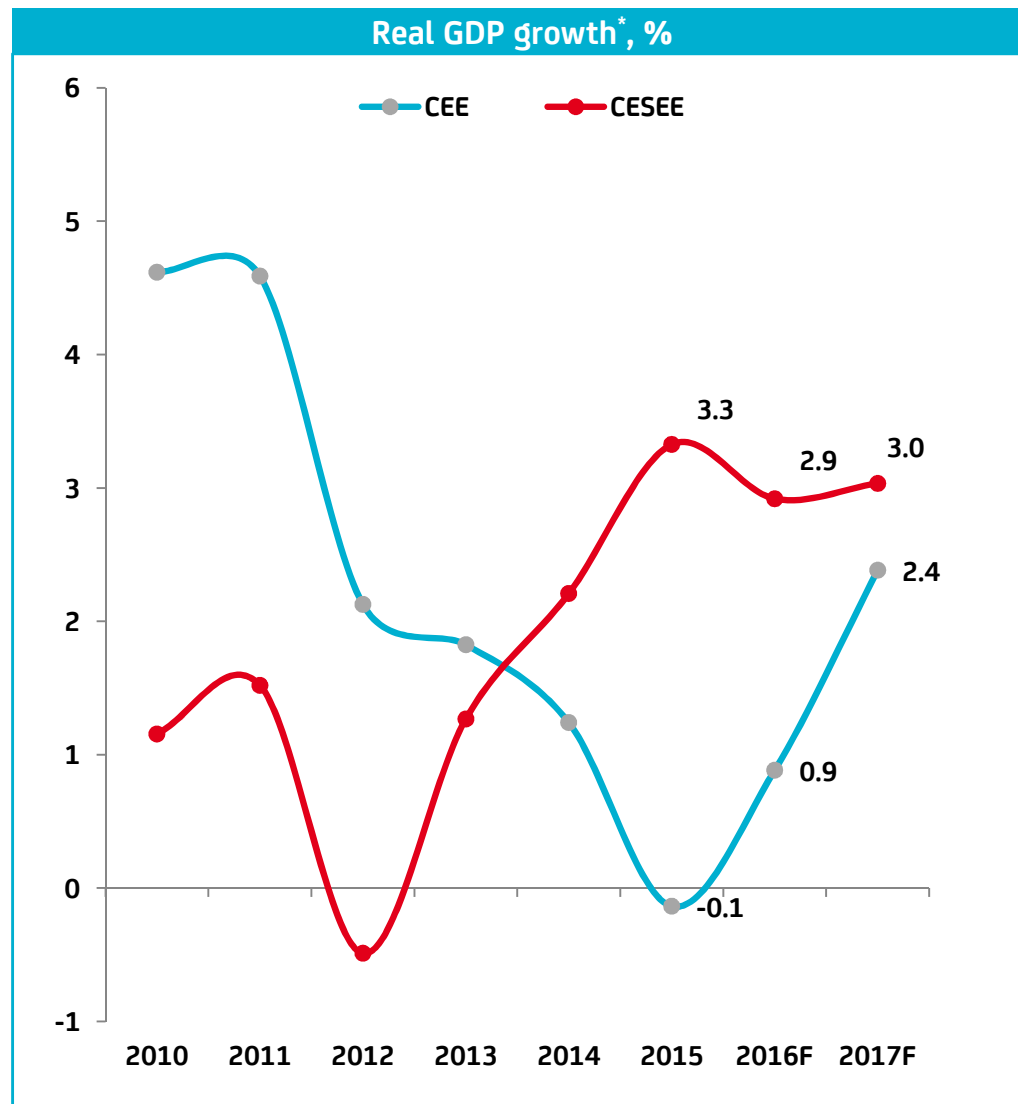

Employment and unemployment rate

Economic growth in CESEE to continue on its recovery path, while in CEE it is picking up slowly due to developments in Russia

1 2 3

Overview Bank Austria
Business Model & Strategy

The GDP forecasts are from the CEE Quarterly published by UniCredit Research in March 2016

CEE: BG: Bulgaria, BH: Bosnia and Herzegovina, CZ: Czech Republic, HR: Croatia, HU: Hungary, RO: Romania, RS: Serbia, RU: Russia, SI: Slovenia, SK: Slovak Republic, TR: Turkey, UA: Ukraine; CESEE:

Cost / Income Ratio (in %)	49.2%	52.6%	-336 bp	44.4%	55.1%	51.0%	-1,071 bp	-664 bp

- **Operating Income up 4% y/y**, driven by strong CEE contribution and supported by sale of VISA shares (€ 183 mn gain)
- **Operating Costs down by 2%**, mainly due to cost savings in Austria
- **Net Write-Downs of Loans significantly down y/y**, with improvements in CEE, and Austria with a very favorable development (net releases)
- **Non-Operating Items € -421 mn**: mainly systemic charges (€ -227 mn, o/w Austria € -118 mn, CEE € -108 mn), and integration costs (€ -210 mn; o/w € -204 mn Austria related to legal changes requiring a higher provision for the transfer of pension obligations to the state pension scheme)
- **Other positions** includes the income tax of € -147 mn, mainly relating to CEE and minorities € -59mn

Note: Non-operating items include provisions for risks and charges, systemic charges, profit from investments and integration costs

Net Operating Profit

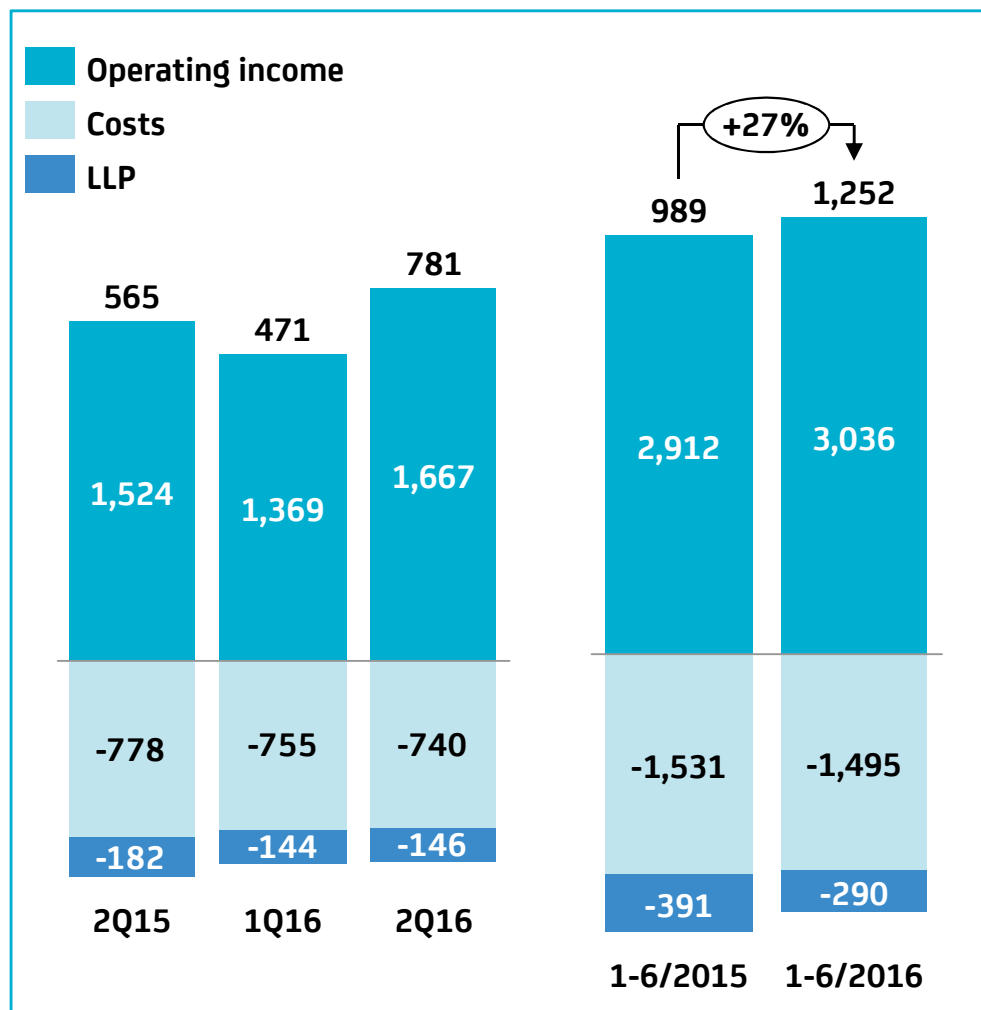

1H16 higher y/y due to higher revenues, successful execution of BA Reloaded and improvements in LLP

1 2 3

Overview Bank Austria
Profit & Loss

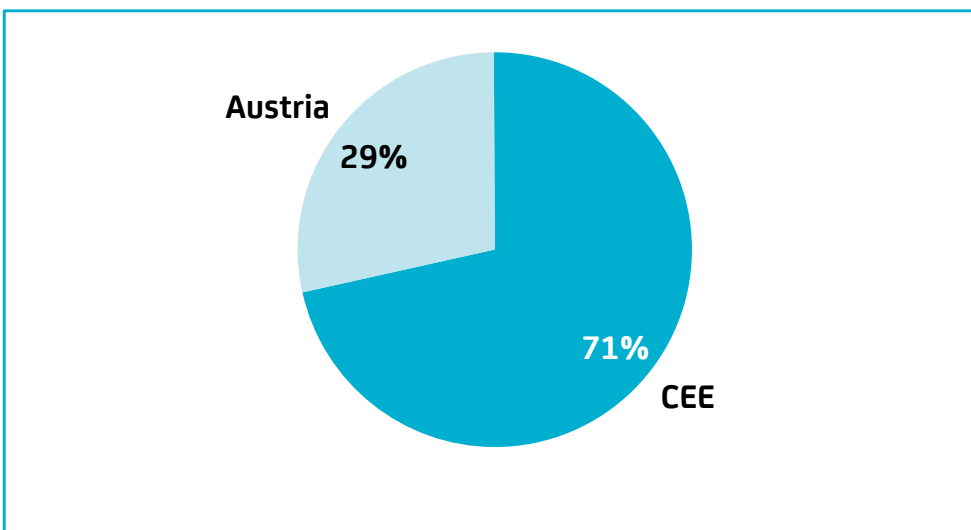

Net Operating Profit Composition

(€ mn)

Share of Divisions ^{*)} –

Net Operating Profit by region (%)

- **NOP up y/y +27%** (higher revenues, cost savings, LLP improvement)
- **4% increase in revenues y/y** driven by strong CEE contribution and supported by sale of VISA shares (€ 183 mn gain)
- **Costs -2% y/y** – following successful cost management and execution of BA Reloaded; payroll costs -10% y/y in Austria thx to FTE reduction and restructuring measures
- **LLP down y/y**, with very favorable development in Austria as well as in CEE

^{*)} without Corporate Center Austria and CEE Subholding Functions

Loan Loss Provisions and Cost of Risk

Very favorable development in LLPs and Cost of Risk

1 2 3

Overview Bank Austria
Profit & Loss

Net Write-Downs of Loans (€ mn)

Cost of Risk (in basis points)

- **LLPs (-26%) and Cost of risk** (BA Group at 49 bps vs. FY15 with 86 bps) **lower y/y** due to:
 - Continuing very favorable development in **Austria** in all segments and a net surplus related to releases for some larger customers. Overall improvement by € 37 mn vs. 1H15 (with Cost of Risk in Austria at only -14 bps)
 - **CEE**: Overall improvement y/y of LLPs by € 65 mn, cost of risk down to 113 bps

Asset Quality

Asset Quality Ratios improving further in 2Q16

1 2 3

Net NPE ¹⁾
(in bn €)

**% of Net NPE
on Total Net Loans ¹⁾**

**% Coverage Ratio on
NPE ¹⁾**

Overview Bank Austria Profit & Loss

- In 2Q16 a **further reduction of Gross Non Performing Exposure** in Austria as well as in most CEE countries (except Russia) led to a decrease of **Net Non Performing Exposure** (Austria: € - 69 mn, CEE: € -236 mn) causing shrinking **NPE Ratios** and improving **Coverage Ratios** in Austria and CEE
- In CEE, and in particular in Russia a remarkable **improvement** of the **Coverage Ratio** was achieved (CEE 56.3%, Russia 58.1%)
- High quality of loan portfolio in Austria**

¹⁾ on-balance clients (non-banks) only

CEE Division shows an outstanding performance supported by increasing revenues, lower loan loss provisions and gain from sale of VISA shares

1 2 3

Overview Bank Austria
Profit & Loss

- **Profit before tax up by 38% y/y (at constant rates)** mainly driven by revenues (supported by gain on VISA shares in CZ, TR, HR, RO, BG, HU and Slovenia) and lower level of provisions in most of the countries vs. previous year
- **Profit before tax up in all countries**
- **Russia:** slightly up at constant rates, due to an increase in operating income and despite an increase in loan loss provisions in a currently difficult environment
- **Turkey:** profitability higher driven by Fee and NII performance and by sale of VISA shares
- In **South East Europe** strong operating performance, with an exceptional result in Romania (PBT up by 80% y/y), and strong results also in the other countries
- Very strong development in **Central Europe**, with strong improvement in Hungary (higher revenues, lower bank levy) and a further improvement in CZ/SK
- **Cost/income ratio** of CEE Division at excellent 36%

1) Turkey consolidated at equity, therefore incl. in CEE total with net profit of € 218 mn. The proportionate profit before tax amounts to € 272 mn.

 - Cover Pool
- 3 Annex

Balance Sheet structure (as of 30 June 2016)

1 2 3

Overview Bank Austria
Balance Sheet & Capital Ratios

Balance Sheet (€ mn)

- **Balance sheet development flat** vs. year end 2015, with a reduction in interbank volumes compensated by 2% increase both in customer loans and customer deposits
- **Solid equity base** of € 16.1 bn (up vs. YE15 by + 5%)
- **Leverage Ratio at strong 6.2%**

Change vs. 31 December 2015 (€ bn)

1) Ukrsofsbank in "held for sale" (Other Assets/Other Liabilities)

Loan and Deposit Volumes

Strong increase in deposits y/y, very good Loans/Direct Funding Ratio

1 2 3

Overview Bank Austria
Balance Sheet & Capital Ratios

Loans to Customers¹⁾ (€ mn)

Deposits from Customers¹⁾ (€ mn)

Loans/Direct Funding Ratio²⁾

85% 83% 83% 82% 84%

- **Loans to customers y/y slightly up** both in Austria and CEE
- **Deposits from customers with a strong growth of 5% y/y**, mainly driven by CEE countries (but Russia mitigated by Ruble devaluation) and also good development in Austria
- Overall excellent funding base, **Loans/Direct Funding Ratio at very good 84%**

¹⁾ All figures recast and excl. Turkey and Ukraine; ²⁾ Loans / (deposits + securities in issue + financial liabilities at fair value)

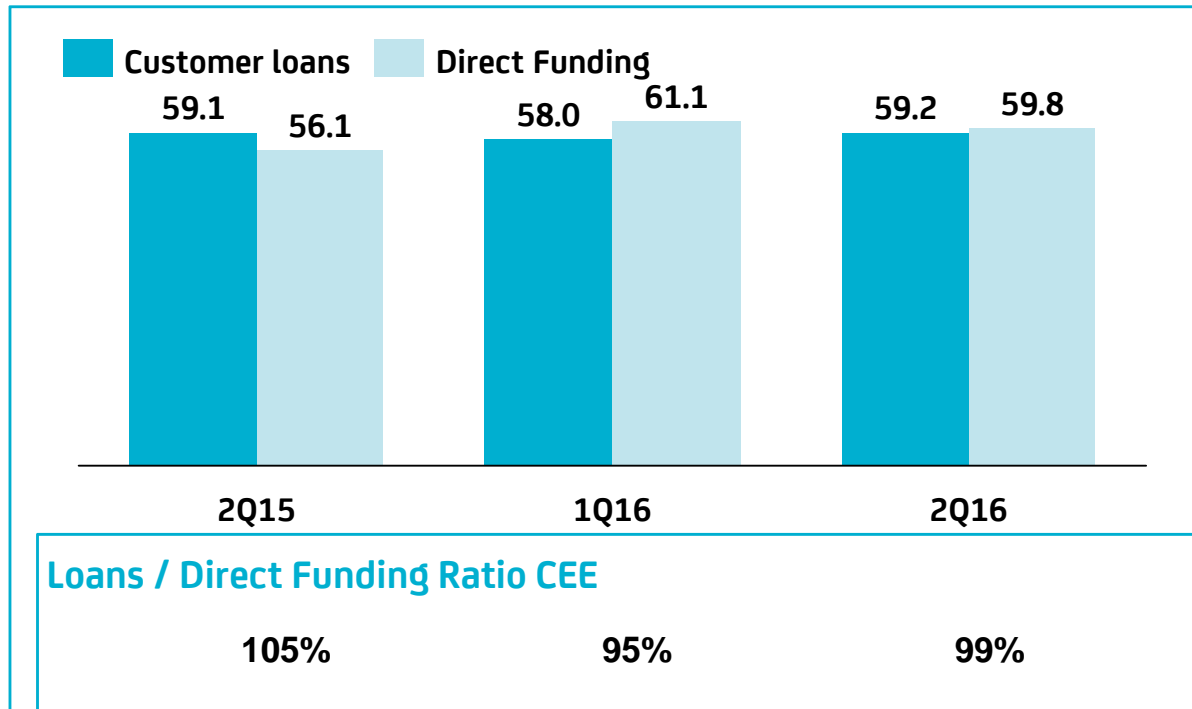

Volumes in CEE

Good business development, impact from currency movements

1 2 3

Overview Bank Austria
Balance Sheet & Capital Ratios

Customers loans / Direct Funding ¹⁾ (€ bn)

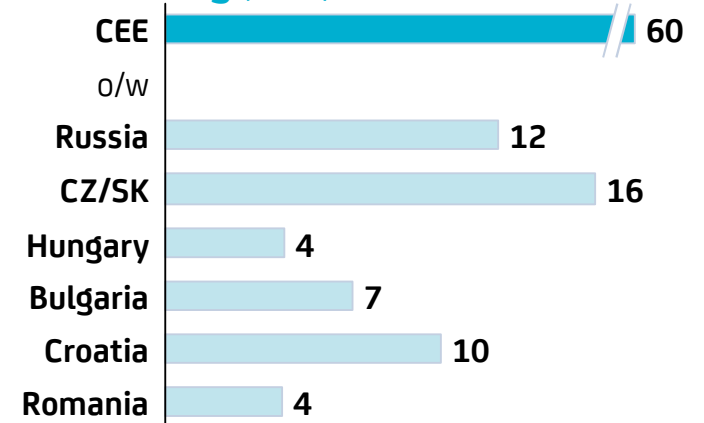

- **Loans/Direct Funding:** Also within CEE, a very good ratio of 99%
- **Regional Breakdown:** well-balanced distribution of volumes, with Russia, Czechia/Slovakia and Croatia as largest banks. In a proportionate view, equity-consolidated Turkey would be the largest CEE bank (loans 21.9 bn, direct funding 19.6 bn)

Regional Breakdown

Customer loans (€ bn) – June '16

Direct funding (€ bn) – June '16 ¹⁾

¹⁾ Deposits + securities in issue + financial liabilities at fair value

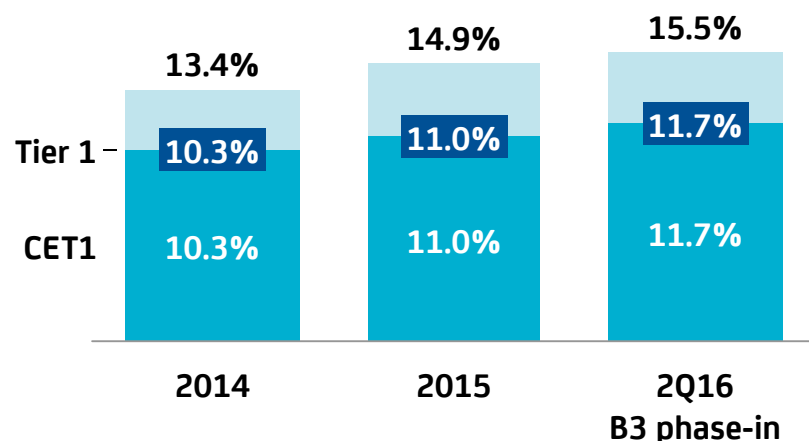

Capital position and RWA

Sound capital ratios

1 2 3

Overview Bank Austria
Balance Sheet & Capital Ratios

Capital Ratios

- **Common Equity Tier 1 (CET1) ratio increased to 11.7%** and **Total Capital ratio to 15.5%** (both according to Basel 3 phase-in)
- **Increase of regulatory capital** mainly due to inclusion of 1H16 profit
- **Total RWA** increase slightly vs YE (mainly due to loan growth in CEE)

Regulatory Capital (€bn)

Risk-Weighted Assets (€bn)

1) Starting with 2014, figures in accordance with Basel 3/CRR and since 3Q14 based on IFRS; transitional adjustments (phase-in) only relevant for capital, not for RWA

Self-funding of Business Growth of Bank Austria Group

1 2 3

Liquidity & Funding
Funding Strategy & Position

Business Growth of BA Group to be self-funded by a well-balanced mix of customer deposits and market issuances

- **Well-diversified funding base** due to BA's commercial banking model. Priority is on growth of local funding sources out of customer business with a variety of products (sight, savings, term deposits) as well as medium- and long-term placements of own issues
- The **self-funding strategy of Bank Austria** was demonstrated by returning to the capital markets: from 2010 focus was given to issuance of benchmark-sized Pfandbriefe and **since 2013** also on **Senior Unsecured Benchmarks**
- The **strict principle of self-sufficient funding of Bank Austria**
 - ensures that the proceeds are used primarily for business development of entities of Bank Austria Group
 - enables Bank Austria to calculate its own funding costs according to its own risk profile

Same Principles apply for the CEE banks of BA Group

- Also in CEE the business model as commercial bank with its priority on growth of local funding sources from customer business leads to a **well-diversified funding base**
- **Self-sufficiency target is applied in CEE** as a business principle of UniCredit Group and is also strongly favored by regulators, e.g. introduction of "Loans to Local Stable Funding Ratio - LLSFR" by Austrian National Bank (OeNB)
- Through its **know-how and international business relationships BA actively supports the development of local capital markets**, especially in local currency, e.g. local Covered Bond issuance in Czech Republic, first SME Covered Bond in Turkey and Senior Unsecured issues in Russia, Turkey and Romania

Liquidity and Funding Management within BA Group based on clear and strict Risk Management Principles

1 2 3

Liquidity & Funding
Funding Strategy & Position

Clear Rules and Principles in Bank Austria for the Management of Liquidity and Funding

Liquidity strategy

- Bank Austria acting as an **independent Regional Liquidity Center (RLC)** within UniCredit Group - in line with the **self-funding principle** of the new Group Strategy
- Bank Austria **manages the liquidity development in Austria and CEE**

Clear operative rules

- Active **liquidity and funding management** by defining short-term and structural liquidity and funding limits for all banking subsidiaries of BA Group
- In addition to the Austrian regulator's principles, BA strictly **monitors the balanced intra-group funding flows** within BA Group
- All international and national legal / regulatory constraints have to be followed on **single bank level**
- Bank Austria establishes a **separate Funding and Liquidity Plan for Austria and its CEE subsidiaries** as part of the Funding and Liquidity Plan of UniCredit Group

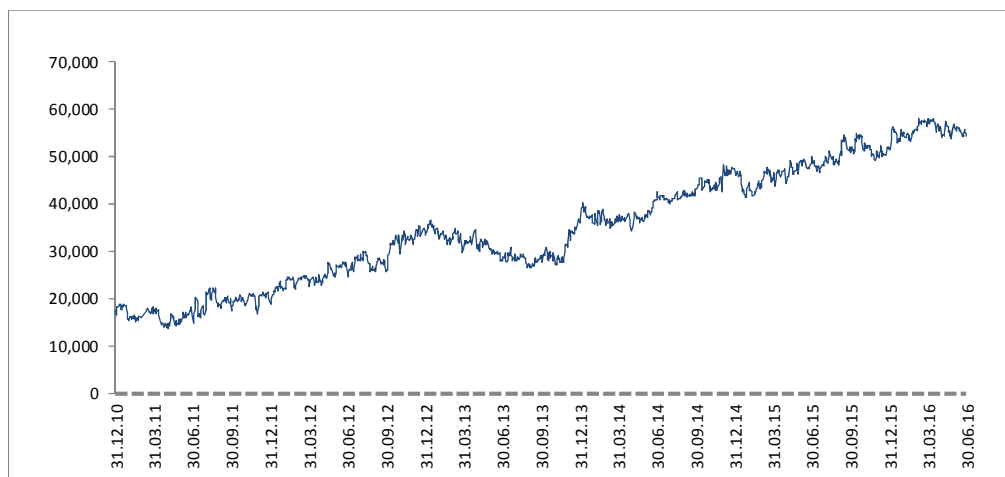

BA Group-wide Liquidity Position (steered centrally by ALM BA)

1 2 3

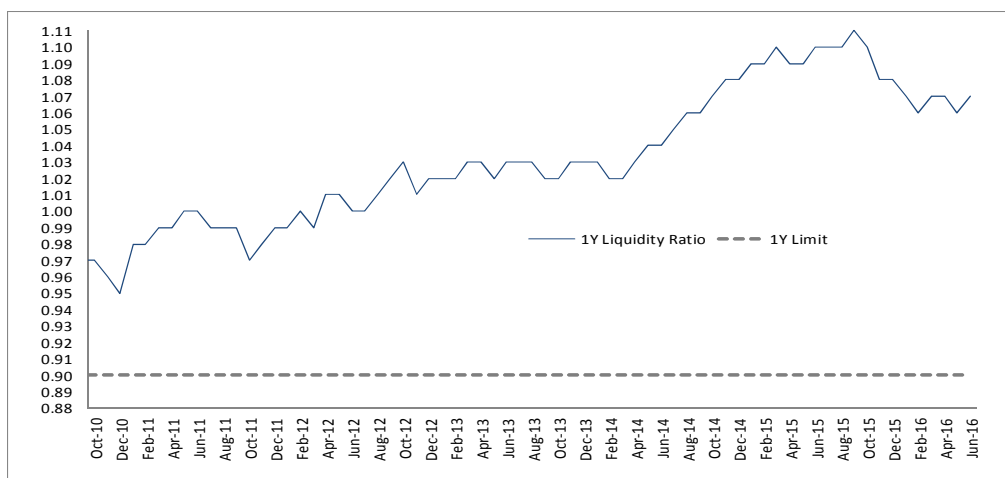

Liquidity & Funding
Funding Strategy & Position

BA RLC 3 month available liquidity position ^{1) 2)}

- **Positive primary GAP**
- **Cash horizon constantly above 3M**, above the Group target
- **Sound counterbalancing capacity** (approx. € 37bn on 3m bucket), increased by € 6.0 bn year on year
- **Liquidity Coverage Ratio** as of 30th June 2016 was still at safe level of 116% for BA AG and 149% for BA Group.

Structural liquidity ratio (1Y)

- **Structural liquidity ratio³⁾ well above limits.**
 - Internal rule of 0.90 for maturities above 1y
 - Level as of June 2016: 1.07
- **Structural Liquidity remains at comfortable levels despite lower FP execution due to DeLorean.**
- **NSFR fulfillment at 103%.**
- **Slight worsening in the L/D ratio compared to Q1 (102%).**

⁽¹⁾ Sum of net liquidity inflow + counterbalancing capacity

⁽²⁾ Assuming no roll-over of current outstanding wholesale debt

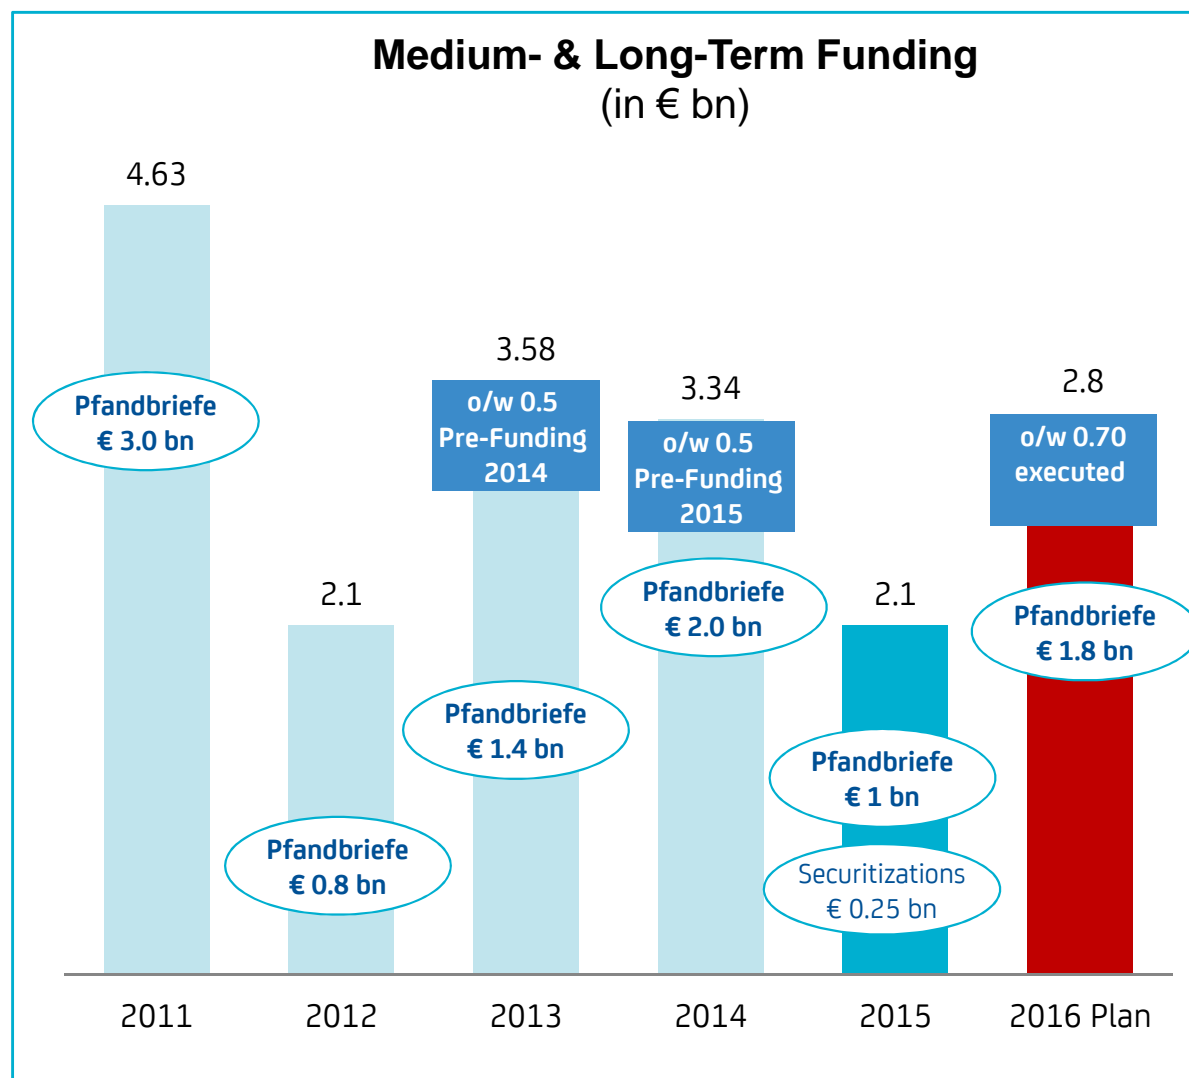

⁽³⁾ Calculated as ratio between liabilities (cumulative sum above one year) and assets (cumulative sum above one year)

Parameters of Issues:	
Total Number	36
Average Maturity (in years)	4.2
Average Volume (in EUR)	126,518,211

*) Austrian Mortgage Banking Act requires a nominal over-collateralisation of 2%. The basis for its calculation is a cover pool value reduced by legally defined haircuts. Taking these haircuts into consideration, the cover pool value amounts to EUR 6,748 mn, thus the overcollateralization is 48.2%. Additionally, in its Articles of Association, UniCredit Bank Austria commits itself to an over-collateralisation on a present value basis.

- **Aaa Rating by Moody's**
- Bank Austria decided to streamline its **Mortgage Cover Pool targeting a simple and transparent pool composition:**
 - focus on **Austrian mortgages only**
 - change to whole loan reporting instead of collateral volume
- **Benefit:**
 - **pure Austrian risk offer** to our investor base
 - no blending of risk, diversification to be decided by investor
 - simple pricing logic
- **ECBC Covered Bond Label** has been granted to the BA Mortgage Cover Pool

Bank Austria's Whole Loan Approach

Whole Loan Approach and its Benefits for Investors

1 2 3

Liquidity & Funding
Cover Pool

According to the Austrian Mortgage Banking Act (HypBG), the maximum coverage volume of "Beleihungswert" is 60% (maximum current outstanding of the loan)

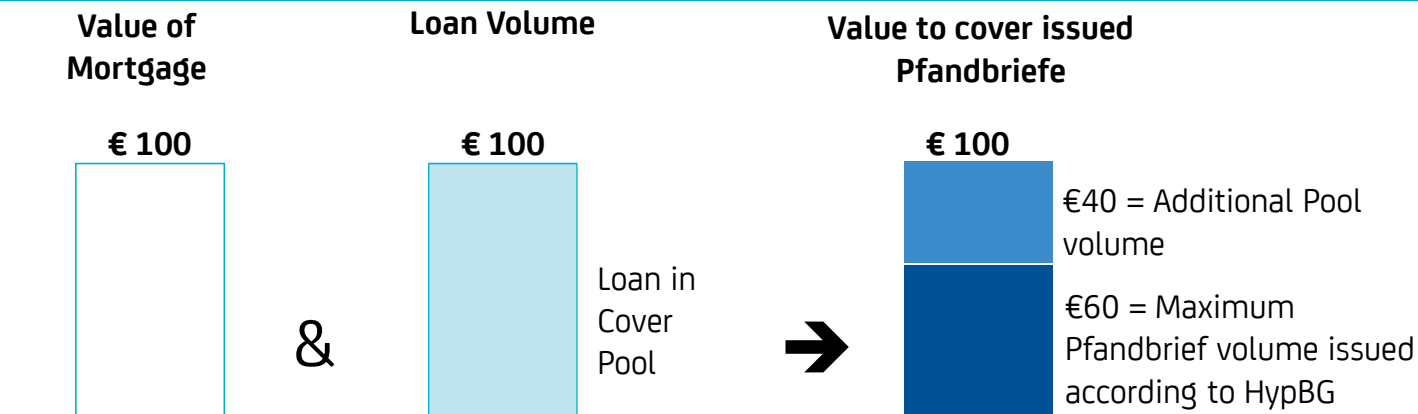

Scenario I: Split Loan Approach = Minimum Approach

For optimization of its collateral value loans are split into 2 parts:

1. included in cover pool and
2. not included in cover pool

Scenario II = Approach of Bank Austria = Whole Loan Approach

The whole loan – and not only its legally assigned value – is included in the cover pool to collateralize BA's issued Mortgage Pfandbriefe.

Thus, investors benefit from collateralization above legal requirement in BA's cover pool.

CHF Loans in mortgage Cover Pool are 100% private residential financing

1 2 3

- The over-collateralization is approx. EUR 5.4 bn or 110% (as of 30th June 2016)

Overview	30.06.2016				
Issue volume	EUR 4.9 bn				
Over-collateralization	EUR 5.4 bn (110%)				
Total Asset Value	EUR 10.3 bn	o/w CHF	31.12.2014	30.06.2016	
Total Cover Value	EUR 7.0 bn	o/w CHF	EUR 1.6 bn	EUR 1.6 bn	(16% of total asset value)
			EUR 670 mln	EUR 564 mln	(8% of cover value / HypBG)

Changes due to
CHF revaluation

- Covering of CHF risk in Cover Pool
 - FX-risks are explicitly considered in the rating process of Moody's and are reflected as part of their over-collateralization requirement
 - *Moody's currently requires an OC of 28.0%*
- Internal Risk Management of Bank Austria
 - According to the Cover Pool Regulation of Bank Austria NPLs are removed regularly (monthly).
 - *Less than 1% of the loans (175 of 26,000) were taken out in 2014 for this reason*
 - Special safety buffers are designated for CHF Loans
 - The credit rating of FX-Loans is subject to additional and stricter standards and will - as always - be evaluated regularly
 - *For CHF Loans an additional FX-buffer of 25% on the credit volume is considered, which must be covered by the credit rating of the client*
- No new CHF mortgage loans, therefore no inflows into Cover Pool since 2010

Austrian Real Estate Market Overview

1 2 3

Annex
Real Estate Market Austria

- The Austrian real estate market has the well-earned reputation as a relatively stable market. IPD/MSCI annually analyses an Austrian portfolio consisting of office, retail, residential, logistics and other properties. In 2015 as a whole, the total return of this portfolio amounted to 5.9%. Over the last ten years annual average total return was calculated as 5.7% and even in the crisis years 2008/2009 total return amounted to around 4%
- In 2015 investment in commercial real estate in Austria reached a new record volume of up to EUR 3.8bn depending on the source. With ultra-low or even negative interest rates demand for real estate will stay strong, although it is somewhat hampered by scarce supply of core property and high prices
- Residential real estate prices in Vienna have risen considerably over the last ten years. Nevertheless, price increases slowed down last year, while prices in the rest of Austria accelerated

Austrian Real Estate Market

Prices for residential real estate

1 2 3

Annex
Real Estate Market Austria

- The strong increase of real estate prices in Vienna has moderated considerably over the last quarters
- Prices in Austria excl. Vienna, which showed a more moderate development over the last ten years, recently accelerated

Austrian Real Estate Market IPD

1 2 3

Annex
Real Estate Market Austria

- Austria's real estate market scores through relatively high stability, which is confirmed by calculations done by IPD/MSCI.

Remark:
Austrian 'Mortgage Pfandbriefe' also follow the same legal regulation as 'Public Sector Pfandbriefe'

Comparison Austria vs. Germany

1 2 3

Annex

Legal situation – Austrian covered bonds

Criteria of Pfandbrief law / Hypothekbankgesetz	Austria	Germany
Pfandbrief law in place	YES	YES
Mortgage and public sector collateral assets in separate pools	YES	YES
Cover register	YES	YES
Collateral assets limited to Europe	YES	X
Legally required minimum over- collateralization	YES	YES
Cover pool monitoring (Trustee)	YES	YES
Special proceedings in case of insolvency	YES	YES
Pfandbriefe remain outstanding in case of issuer's bankruptcy	YES	YES
NPV matching	YES*	YES

- Austrian „Hypothekbankgesetz“ was initially based on the German legislation
- Important changes to the German "Pfandbrief" - legislation were followed by the Austrian "Hypothekbankgesetz", which continues to reflect the principal features of the German "Pfandbriefgesetz"
- Main differences in the current version are:
 - German law also allows collateral assets from non-European countries
 - German law includes compulsory NPV-matching, whereas in Austria a voluntary commitment is foreseen to be stipulated in the articles of association. Bank Austria, accordingly, included such clause in its articles of association

* if included in the Articles of Association of the respective credit institution
