

# Take control of your trading – with UniCredit Trader (UCTrader)!

**UCTrader from UniCredit Bank Austria** is a web-based tool that was specially designed for **currency trading**.

UCTrader delivers prices for relevant currencies directly to your computer. You can execute transactions with the push of a button and conveniently trade the desired currencies and financial instruments with a user-friendly interface. At the same time, you can choose between spot, forward currency, and foreign exchange swap transactions. Executed transactions are saved for you and can be viewed later.

The tool is always up to date and is expanded and refined with additional investments on an ongoing basis.

## THE WIDE RANGE OF FEATURES INCLUDES

---

- Personalised **display of prices and monitoring and management of trading activities**
- **Access to trading transactions** at the click of a mouse
- **Execution of spot and forward transactions** as well as FX swaps and placement of limit orders

## IMPORTANT NOTICE

---

**All transactions are conducted online and thus take effect immediately.** They cannot be cancelled in the event of an error but only offset with a countertrade!

## TARGET GROUP

---

This service is aimed at all companies who wish to have **free, direct access** to the **financial markets** from **anywhere** during trading hours in order to remain competitive and informed in the fast-moving world of the foreign exchange markets.

## ADVANTAGES AT A GLANCE

---

- **Free and direct access to the financial markets**
- **Shorter time to market:** With UCTrader, you don't have to worry about the hardware or maintenance and can **immediately** take advantage of the **benefits of an electronic trading platform**.
- **Reliability and security:** You work with a **stable, reliable system** that meets industry standards.
- **User-friendly application:** **No software has to be installed or changes made** to your computer. You simply **log in** by **entering a password and a PIN**.

## SYSTEM REQUIREMENTS

---

UCTrader is a web-based application and does not require an installation on your PC. The system supports the latest versions of Mozilla Firefox, Google Chrome, Microsoft Edge and Microsoft Internet Explorer. If you are unsure if your browser is supported, please contact our UCTrader hotline.
