### YOUR SITUATION

### WHAT ARE THE REQUIREMENTS FOR AN KRR?

---

You are an Austrian company that exports goods and/or services with at least 25% Austrian value added. Now also available for indirect exporters (suppliers).

### FINANCING AMOUNT

---

- **SMEs:** up to 30% of your annual export turnover can be used as a revolving credit line. The maximum credit amount granted is determined by your export receivables and your export orders.  
Tourism businesses can receive financing up to a maximum of 14% of their annual export turnover.
- **Large enterprises:** up to 10% of your annual export turnover can be used as a revolving credit line. The maximum credit amount granted is determined by your export receivables and your export orders.

### CREDIT TERM

---

The Exportfonds credit / Kontrollbank credit line (KRR) is a revolving working capital credit, that is usually in place for many years.

### CREDIT COSTS

---

- OeKB Exportfonds credit / Kontrollbank credit line (KRR) interest rate

## COLLATERAL

---

Within the framework of the guarantee by aval ("Wechselbürgschaft") the Republic of Austria can assume part of the commercial risk (up to 80%) depending on your creditworthiness and financing structure. Priority is given to the assignment of export receivables and the joint liability of Bank Austria, which then determines the appropriate collateral.

Based on a credit assessment additional standard bank collateral may be required which has to be shared with OeKB in proportion to the federal liability share.
